Help card

1. A continent is land; an ocean is water. Antarctica is land under a thick layer of ice.

2. Start with the countries you know. Think of what you know about them: pyramids, sushi, paella, tango or lions on the savannah.

3. Use your answers from the tables above. For the smallest ocean, think of the one that is almost completely surrounded by land.

4. China and India are on this continent.

5. Planes from Amsterdam to New York fly over it.
